Notes from the Author

Greetings of love in the name of Jesus Christ. It is not my intention that this book should be used as a set of memorized prayers. Instead, all the prayers in it are model or sample prayers.

Teach them to memorize these prayers at a young age. At the same time, teach them how to take additional prayer points at home, as per your circumstances & situations. Continue to pray in front of children so that your prayers will be an example for them. I would also advice to practice reading the Bible in front of them.

Of these 40 prayers, pray five prayers every morning and night: the Prayer of Praise, the Prayer of Thanksgiving, the Prayer of Grace, the Lord's prayer and the Full body prayer.

You just need to make them practice for few months, and then they will start doing it regularly.

It is our duty to raise our children the way they should be raised. There is no point in not raising them properly and regretting it later. May the Lord Himself give you the wisdom you need and guide you!

Greetings of love in the name of Jesus Christ. It is not my intention that this book should be used as a set of memorized prayers. Instead, all the prayers in it are model or sample prayers.

Teach them to memorize these prayers at a young age. At the same time, teach them how to take additional prayer points at home, as per your circumstances & situations. Continue to pray in front of children so that your prayers will be an example for them. I would also advice to practice reading the Bible in front of them.
